

# DISCHI SEMIFLESSIBILI RINFORZATI DISQUES SEMI-FLEXIBLES RENFORCES REINFORCED SEMIFLEXIBLE DISCS

**SAIT tre**  Tipo / Type / Type 29

**A** Disco semiflessibile a profilo convesso, ideale per operazioni di sbavatura con buona finitura. Alto rendimento, elevata asportazione, ridotte vibrazioni.  
■ acciai, acciai inossidabili, alluminio, leghe non ferrose

Disque semi-flexible à profil convexe, idéal pour les opérations d'ébavurage avec une bonne finition. Haut rendement, enlèvement de matière élevée, vibrations réduites.  
■ aciers, aciers inoxydables, aluminium, alliages non ferreux

Semiflexible disc with convex profile, ideal for grinding as well as finishing. High performance, high stock removal, reduced vibrations.  
■ steels, stainless steels, aluminium, non-ferrous alloys

## ■ Applicazioni principali / Préconisations principales / Main applications

Prodotti Produits Products	Diametro Diamètre Diameter mm	Spessore Épaisseur Thickness mm	Foro Alésage Bore mm	Grane Grains Grits				Max 1/min Tours minute Max 1/min	Abrasivo Abrasive Abrasive

### TECNOLOGIA "GOCCIA"

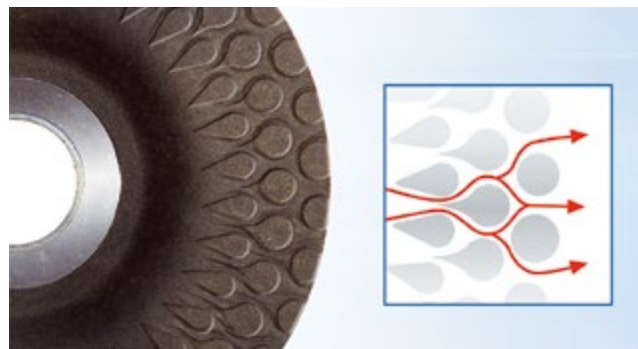

La nuova tecnologia a goccia (technodrop) è il risultato di una attenta ricerca tecnologica ed applicativa che si traduce in un risultato eccellente utilizzando il SAIT tre.

### TECNOLOGIE "GOUTTE"

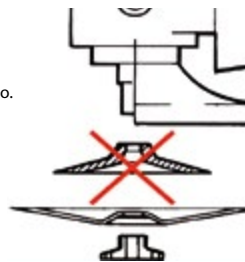

La nouvelle technologie "goutte" (technodrop), appliquée au nouveau disque SAIT tre est le résultat d'une longue recherche pour vous assurer une performance optimale.

### "TECHNODROP" TECHNOLOGY

The new "technodrop" technology is the result of a careful technological and application research getting an excellent result by using SAIT Tre.

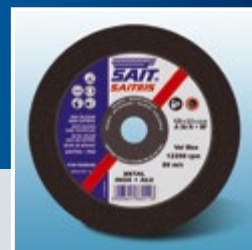

No plattello di supporto.  
Montage sans support.  
No backing pad required.

## LEGENDA LEGENDE LEGEND

**A** Corindone / Corindon / Aluminium oxide

# DISCHI SEMIFLESSIBILI RINFORZATI DISQUES SEMI-FLEXIBLES RENFORCES REINFORCED SEMIFLEXIBLE DISCS

## SAITRIS-SF

**A**

Elevata velocità di asportazione. Lunga durata. Scarso effetto impanante. Basso livello di riscaldamento

■ ferro, acciai, acciai inossidabili, alluminio, materiali non ferrosi

Vitesse d'enlèvement de matière élevée. Longue durée. Faible encrassement. Faible niveau d'échauffement.

■ fer, aciers, aciers inoxydables, aluminium, matériaux non ferreux

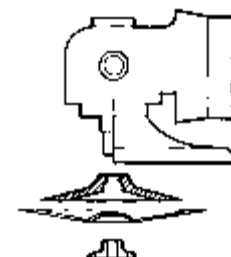

High stock removal. Long life. Low clogging. Low overheating.

■ iron, steels, stainless steels, aluminium, non-ferrous materials

■ Applicazioni principali / Préconisations principales / Main applications
